# Meda Tarun Venkat

Hyderabad, Telangana tarunvm0909@gmail.com 8897833659 in/tarun-meda-91b71b307

## SUMMARY

Aspiring tech professional skilled in coding, problem-solving, and teamwork. Experienced in developing interactive applications and adapting to new technologies to create efficient, user-focused solutions.

## EXPERIENCE

### Full Stack Developer

**Indian Institute of Technology - Ropar** **December 2025 - Present, Punjab, India**

- Built Vi-SlideS, a MERN & TypeScript platform for AI-driven classroom engagement at IIT Ropar.
- Integrated Google Gemini AI for real-time sentiment analysis and automated student question categorization.
- Developed real-time features using Socket.io and secure authentication (JWT/OAuth) for live sessions.

### Web Developer

**Google Developer Groups** **October 2025 - Present, India**

- Worked in a team to build a real-time exam question answering system for college students.
- Collected, cleaned, and processed past exam papers from PDFs and documents.
- Created semantic text chunks with subject and topic metadata for accurate retrieval.
- Built embedding-based search using FAISS to fetch relevant answers quickly.

## PROJECT

### Vi-SlideS

Indian Institute of Technology of Ropar • December 2025 - Present

- Developed Vi-SlideS an AI-powered classroom platform using the MERN stack and TypeScript, enabling real-time interaction between teachers and students.
- Integrated Google Gemini AI to automate question categorization and perform live sentiment analysis, providing teachers with instant insights into student comprehension.
- Engineered real-time engagement modules with Socket.io, featuring live leaderboards, pulse checks, and instant question submission systems.
- Implemented secure multi-role authentication using JWT and Google OAuth 2.0, while designing a premium, responsive UI with a Glassmorphism aesthetic.

### GCTC Study Hub

Google Developer Groups • October 2025 - Present

- Collected and cleaned past exam papers from PDFs and documents.
- Converted data into semantic text chunks with subject-wise metadata.
- Generated embeddings and built FAISS index for fast answer retrieval.
- Implemented RAG-based question answering with source references.
- Developed FastAPI backend to provide real-time responses.

## EDUCATION

### Bachelor of Technology

Minor in Computer Science • Geethanjali college of Engineering and Technology • Hyderabad, Telangana • 2027 • 8.8

### Pre - University

Minor in Mathematics, Physics, Chemistry • Deeksha Junior College • Hyderabad, Telangana • 2023 • 9.65

### High School

Bhavan's Sri Ramakrishna Vidhyalaya • Hyderabad, Telangana • 2021 • 7.3

## CERTIFICATIONS

### The Joy of Computing Using Python

Indian Institute of Technology Madras • 2025

### Problem Solving (Intermediate)

HackerRank • 2024
• It shows my ability to think logically and solve coding problems efficiently.

### Problem Solving Through Programming in C
Indian Institute of Technology Kharagpur • 2024
• Certified in Problem Solving Through Programming in C from NPTEL, IIT Kharagpur, successfully completing a 12-week course, showcasing expertise in C programming fundamentals, algorithmic thinking, and structured problem-solving methodologies.

### Database Programming With SQL
ORACLE Academy • 2024
• Certified in Database Programming with SQL
• Oracle - Acquired expertise in SQL queries, database design, and management techniques.

## SKILLS

FrontEnd: HTML, CSS, JavaScript, React, TypeScript
BackEnd: Express.js, Node .js
DataBase: MySQL,MongoDB
DesktopGUI: Java Swing, AWT
AI/ML: Large Language Models (LLMs), Embeddings, RAG
DevOps / Tools: Docker, Git, GitHub
